

TIM GAUTHIER TRIO

Serving up a creative mix of jazz rhythms, this trio is sure to include something for everyone. Along with original numbers, the band's repertoire includes time tested tunes by classic jazz composers ranging from swing to bebop to modern. This group provides just the right spark for any occasion.

TIM GAUTHIER

I started playing guitar as a teenager, and it has been my passion ever since. While completing my degree in music education, I enjoyed playing in different jazz ensembles at Colorado State University. For over twenty years, I have played in a variety of groups and especially enjoy the jazz trio sound. Playing with Colorado front range musicians has helped me to better understand the roots of this great American art form and has provided an opportunity for me to meet a lot of outstanding people. I look forward to sharing this great music with you!
